The journal is calling for papers from all the world. All the valuable papers or reports that are related to life sciences - in their broadest sense - are welcome. Other academic articles that are less relevant but are of high quality will also be considered and published. All manuscripts will be reviewed by the editorial office and all the qualified articles are sent for peer-review after the editorial review. Papers submitted could be reviews, objective descriptions, research reports, opinions/debates, news, letters, and other types of writings.
